(610) 996-7370

Willing to relocate: Anywhere

Authorized to work in the US for any employer

WORK EXPERIENCE

Penn LPS Coding Bootcamp

University of Pennsylvania - Philadelphia, PA

January 2020 to Present

Full-time full-stack development bootcamp that teaches HTML, CSS, Javascript & Node.

A/R Specialist

Acclara Solutions - Fort Washington, PA

2018 to Present

- * Research and investigate cause of claims through correspondence with insured, adjusters, and hospitals.
- * HIPAA compliant and trained.
- * Analyze reports and statistics with fellow specialists to find best settlements for insured and insurer
- * Partner with customer service team to assist clients, fielding telephone calls, and answering emails to SWF.

Senior Capstone Research

Environmental Studies Department - Gettysburg, PA

2017 to 2017

- * Investigated effect of climate change on zoos and aquariums in the United States through observation and surveys.
- * Connected with zoologists, aquarium officials, and the general public to gather their perspective on climate change education present in the facilities.
- * Delivered a detailed, yet concise, report with the findings that there is very little mention of climate change at zoos and aquariums to the detriment of the animals people are viewing. However, the general public are extremely eager to learn more, especially when they are able to see the animal right in front of them

Coastal Marine Ecology Internship

GVI, Phunket - TH

2016 to 2016

- * Traveled across Thailand to discover more about the country's ecological environment and help with conservation efforts conducted by local park rangers, especially in areas most devastated by the 2004 tsunami.
- * Provided regional scientists with data and reports to determine next steps in the conservation plan.
- * Conducted in-field research and biodiversity surveys throughout several national parks and beaches
- * Helped maintain trails and lead volunteers on biodiversity hikes
- * Coordinated ecological, safety, and program support for further environmental reporting

- * Helped coordinate beach cleans with the local community and other volunteers
- * Had weekly presentations on topics of choice that related to the local environment that I presented to other volunteers and staff members
- * Taught local elementary school children about basic conservation concepts and had them work on hands-on activities and art projects to fully grasp and enjoy the topics

EDUCATION
